EDUCATION

BSc in Computer Science & Engineering Jahangirnagar University,
Edge IoT & Robotics Jahangirnagar University

[Jahangirnagar University](#)

📅 01/2021 - 12/2027

SUMMARY

Frontend developer skilled in building responsive web applications and IoT solutions with expertise in HTML, CSS, JavaScript, and tools like Arduino and ESP8266. I've developed a range of projects, including real-time chat apps, interactive quizzes, and IoT-based environmental monitoring systems. My portfolio features over 25 mini-projects, from dynamic UIs to educational resources on JavaScript and CSS, reflecting a commitment to creating impactful, user-focused digital solutions.

EXPERIENCE

Frontend Developer | IoT Solutions Developer

None

📅 06/2024 - Present 📍 Location

Developed **responsive websites** and **web apps**, including **real-time chat applications**, **interactive quizzes**, and **IoT systems**. Proficient in **HTML**, **CSS**, **JavaScript**, and **API integrations**.

- Designed and built **IoT-based environmental monitoring systems** using **Arduino** and **ESP8266**, integrating sensors for real-time data collection and analysis.

KEY ACHIEVEMENTS

Frontend Development , IoT & Smart Technologies

Earned the FreeCodeCamp Responsive Web Design certification, showcasing expertise in building mobile-friendly, user-centric web applications. Developed an IoT-based bicycle chain lock system, providing enhanced security for cycles and real-time theft detection for owners.
